

I highly recommend the Chinese calligraphy services of Leo Andres. We needed help in designing a grave marker with Chinese lettering, and had no idea how to go about it. Fortunately, we found Leo through his web site. He responded within hours of my request for his help. Through the messages back and forth, Leo was very professional and fast through the whole process. I'm very happy with his services and his pricing is extremely reasonable. I highly recommend him for professional assistance with a memorial marker or any service you may need regarding Chinese calligraphy or translation.
